

## Star of Hope Update

You will notice activity on Windy Way in the coming weeks.

The Star of Hope Foundation is about to begin demolition on this small yellow building which overlooks Carver's Pond. Our engineers carefully analyzed all of the real estate owned by the foundation, and this building was found to be in significant disrepair: structurally unsound and posing a safety risk. The first step will be to remove windows and doors and then an environmental abatement crew will come in as required, and remove materials often found in old buildings. Following this effort, the building will come down and the area cleaned up.

As for future use, the Star of Hope Foundation Board will be meeting in May to discuss the possibilities. As one can imagine, there are a number of options that have been suggested. The Board will consider the town's ordinances and the constraints on this property, before formulating a plan for future use.

For information regarding the Star of Hope Foundation visit: [www.starofhopefoundation.org](http://www.starofhopefoundation.org)

*The Star of Hope's mission is to promote education of the visual arts in Maine.*
